2. Company information

We are Swisspearl.
Swisspearl creates building envelopes and living spaces, aesthetic and sustainable, by people for people.

Working with high quality awareness, respect for nature and our high standards for design and esthetics, we develop and sell innovative, sustainable products for facades, roofs, and interior design, as well as garden and design. The scope for architectural flexibility and timeless materials are our distinguishing marks. Value retention and appreciation are our first principles.

Swisspearl is the export brand of the globally active Swisspearl Group, which has its head office in Niederurnen, Switzerland and employs close to 1200 staff.
3. Product information

3.1 Swisspearl Facade panels

From surface areas to façade

No space without surfaces. No interior without an exterior. A façade is the defining element of every building. The first, lasting impression. It is the two- and three-dimensional expression of architectonic creativity and the leeway available for accentuation and differentiation. Additionally, the façade serves as the protective envelope. Its long service life ensures lasting comfort. Swisspearl façades combine boundless diversity of design and long-lasting functional reliability, for the highest living standards.

Swisspearl panels are installed in accordance with the ultimate technology of uninterrupted rear ventilation. This fully developed and proven cladding system effectively protects the building structure and with it the whole building from the elements for decades. The panels are rot-resistant, incombustible and virtually maintenance free.
3.1.1 Swisspearl Largo

**Freedom of design without limits**

The large-format Swisspearl Largo panels give façades what they need: a face, individuality, character, texture, color and, very importantly, a highly effective protective layer. Swisspearl allows an immense range of possibilities for the design of façades, with an extensive selection of surface options, various types of joints and fastenings, and panel formats that can be freely selected within the maximum useable size. For visible creativity and to meet the highest aesthetic requirements, in proven Swisspearl quality.

**Sizes:**
Arbitrary panel size up to a maximum size of 3050 x 1250mm, thickness 8mm and 12mm

**Colors:**
A wide range of more than 80 colors.
Detailed information please refer to our [delivery programm](#).

**Installation:**
The whole range from flat layer to lapped coverings, with face or concealed fastening.
3.1.2 Swisspearl Linearis

**Elegant and light**
Swisspearl Linearis are ready-made Swisspearl panel strips, for installing with open joints. Whether monochrome or multicolored, equal or varying format lengths, with continuous or offset joints – there is immense scope for different combinations. The low consumption of resources and energy for their manufacture, and their long working life, make Linearis the epitome of sustainable construction, like all Swisspearl products.

**Sizes:**
4 different panel sizes, thickness 8mm.

**Colors:**
A wide range of more than 70 colors.
Detailed information please refer to our [delivery programm](#).

**Installation:**
Easy installation with open joints, panels attached by rivets or screws.
3.1.2 Swisspearl Modula

Medium-size format for high-end architecture
The horizontal Swisspearl Modula structure has a fine architectonic rhythm. The slim panels, available in two different lengths, are installed as lapped coverings and can be arranged both with continuous and with offset vertical joints. A large number of different surfaces and colors enable numerous additional design variants.

Whether monochrome or multicolored, equal or varying format lengths, with continuous or offset joints – Modula provides immense scope for individual combinations.

Sizes:
2 different panel sizes, thickness 8mm.

Colors:
A wide range of more than 70 colors. Please find the availability in our deliver program. Detailed information please refer to our delivery programm.

Installation:
Installation of the modules with continuous or offset vertical joints is possible.
3.2 Swisspearl interior

Inspiring freedom of design
Whether it is for cladding interior walls or ceilings. Swisspearl interior lends a fascinating quality and atmosphere to the room that is being designed, in a surprising new way. The fiber cement material with its delicate surface texture and the carefully matched full-body color, lend the Swisspearl Largo panels an unmistakable uniqueness, with their pleasant natural appearance and surface feel. What is more, their beneficial physical properties mean that they are extremely tough, durable and fire-resistant, so they are long-lasting, reliable and problem-free.

Swisspearl panels are also suitable to enhance room acoustics. Made of inert material, perforated Swisspearl panels are sound-absorbent to approx. 10 decibels. Sound absorption coefficient can be improved by using sound absorbing mats.

Sizes:
Arbitrary panel size up to a maximum size of 3050 x 1250mm, thickness 8mm and 12mm.

Colors:
A wide range of more than 80 colors and additional custom colors.

Detailed information please refer to our delivery programm.

Installation:
The whole range from flat layer to lapped coverings, with face or concealed fastening.
3.3 Swisspearl the 5th façade

A clear language to express architectonic visions
Leave the conventional behind and strike out new paths. Swisspearl invites you to experiment with space, form and surfaces, and develop creative solutions, without compromising the functional reliability in any way. The Swisspearl Largo roof panels with their proven Swisspearl quality will add character to roofs with a slope of just 6 (10.5%) degrees or more, and provide an exciting visual effect even when viewed from a distance.

Sizes:
2 panel sizes, thickness 8mm.

Colors:
10 Carat R-Colors
Detailed information please refer to our delivery programm.
3.4 Garden and Design

**Style, diversity and quality for interiors and exteriors**
Indoors and out. Aesthetic and functional. A comfortable atmosphere and a sense of wellbeing are basic human needs. Whether shrubs, summer flowers, small trees or design accessories, the design of private and public space is an expression of individual values, and at Swisspearl Garden & Design the possibilities are virtually endless.

Cut, pounded, smoothed, flattened: every Swisspearl planter and design piece is made by hand in Switzerland. In Payerne (VD), the creators mould the garden and design products from the Swisspearl material with a lot of expertise and delicacy. When they’re finished, they sign their name on the product label, making each planter and every design piece truly unique with a personal touch.
