SWISSPEARL

The Inland Northwest Behavioral Health Hospital represents a community investment into the growing need for behavioral health treatment. Through a holistic approach to design, the facility overcomes the stigma of mental health, and provides a safe, reassuring place where people can heal with dignity.

The X-shaped building stands on sloping terrain, which is balanced by a base. The outer shell of the house appears cautiously gray, in complete contrast to the inward-facing facades, which are formulated in striking color combinations.
