The Bydgoszcz Fair & Exhibition Centre stands as a beacon of commerce, innovation and community in northern Poland. Renowned as one of the largest exhibition and conference facilities in the region, it serves as a dynamic hub for businesses, entrepreneurs, and industry leaders to convene, collaborate, and showcase their latest innovations. The Centre exemplifies a harmonious blend of functionality and aesthetic appeal with its innovative use of Swisspearl facade panels assembled in a horizontal format.

Please note that this Reference project features Patina products. However, since the colour range for Patina NXT is the same, this reference also provides a general impression of the look and feel of a Patina NXT project.
