

Apartment Building Jelling

Vejle, Denmark

Facade Swisspearl Patina Original NXT P 545

Location Jellingevej 34, 7100 Vejle

Photographer Fotograferne Nibe, Nibe, Denmark

Type of Building Residential

SWISSPEARL

The apartment building, located in Vejle close to the city center, stands out among the surrounding row houses. Situated on a hill, the apartments enjoy a unique view over the city of Vejle, the iconic Bølgen (The Wave) building, and the fjord. The residential complex towers above the neighboring houses and distinguishes itself in both style and form. The neighborhood is characterized by classic brick houses, which makes the fiber cement-clad tower stand out in the landscape. The complex is clad with black Zenor panels and sand-colored Patina Original facade panels, creating an elegant and contrasting appearance.

Please note: this reference project features products from the Patina range. As the color range for Patina NXT is the same, this project also provides a good general impression of the look and feel of a Patina NXT project.
