Precast fibre cement products

SWISSPEARL GROUP AG

DECLARATION BY KIWA

This product certificate is issued on the basis of BRL 5071 'Precast fibre cement products' dated 16 April 2015, issued in accordance with the Kiwa Regulation for Certification.

Kiwa declares that:

- there is legitimate confidence that, upon delivery, the precast fibre cement products delivered by the certificate holder comply with the environmental-hygienic specifications recorded in this product certificate, provided they bear the NL BSB® mark in the manner indicated in this certificate.
- with due regard for the above, precast fibre cement products in their applications comply with the relevant requirements of the Soil Quality Decree [Besluit bodemkwaliteit].

Kiwa declares that no check has been carried out of the use in projects, nor of the user's obligation to notify and/or inform the competent authority.

As regards the Soil Quality Decree this is a certificate recognised by the Minister of Infrastructure and Water Management, if the certificate is included in the 'Overview of recognised quality certificates in the building sector' on the SBK website: www.bouwkwiteit.nl and the website of Bodem+: www.bodemplus.nl.

Precast fibre cement products

ENVIRONMENTAL-HYGIENIC SPECIFICATIONS

Subject and scope

This product certificate relates to the precast fibre cement products by the certificate holder and the accompanying environmental-hygienic characteristics which can be used in structures, in or on the soil and/or in an area of surface water.

Marks and indications on the delivery documents

The design of the mark is as follows:

NL BSB® K99788

The products or product packaging are to be marked with:

- The letters NL-BSB® or the NL-BSB® mark followed by the certificate number;
- The name of the certificate holder;
- The production location (code);
- The production date or coding.

The delivery documents contain, in any event, the following:

- The letters NL-BSB® or the NL-BSB® mark followed by the certificate number;
- The name of the certificate holder;
- The production location;
- The delivery date;
- The product name and the quantity delivered;
- The text: *structured building material*.

Composition and emission

The average values of the composition determined in accordance with AP 04-SB and the average emission determined in accordance with AP04-U comply for the intended scope of application with Annex A of the Soil Quality Regulation [Regeling bodemkwaliteit].

Conditions of use

precast fibre cement products must be used:

- In accordance with the application indicated on the delivery documents.
- In accordance with Articles 5, 6, 7 and 33 of the Soil Quality Decree (functionality, duty of care and resumeability).

TIPS FOR THE USER

Upon delivery check whether:

- The delivery consignment is correct and complete.
- The marking and the marking method are correct.
- The consignment note contains all the details.

If the products are rejected on the basis of the above, please contact:

- Swisspearl Group AG

and as necessary:

- Kiwa Nederland B.V.

The conditions of use must be observed.

Submit the proof (consignment note and certificate) to the customer. This does not apply to delivery to natural persons other than in the execution of a profession or business.

TIPS FOR THE CUSTOMER

Keep the proof (consignment note and certificate) available for inspection by the competent authority for at least 5 years. This does not apply to natural persons other than in the execution of a profession or business.
