

Requirements for chemicals used in the EU taxonomy

All building components and materials used in sustainable buildings and renovation projects must comply with the (EU) 2020/852 EU Taxonomy and delegated regulations.

The Chemical Delegated Regulation (EU) 2021/2139 Technical Screening Criteria specifically describes requirements for used chemical products in the *Do No Significant Harm* criteria under sections "7.1 Construction of new buildings" and section "7.2 Renovation of existing buildings". Sections 1-11 below reproduce these requirements.

Supplier declaration to document compliance with the EU taxonomy's requirements for sustainable construction.

The signature confirms that the product as of today meets points 1-11 below. If one of the points cannot be complied with, the declaration cannot be signed. Incorrect information can have legal consequences.

With the signature, the manufacturer also undertakes to withdraw the supplier's declaration if tests show that the construction product cannot comply with the requirements of points 1 and 2, or if a substance in the construction product is included in one of the lists mentioned in points 3-11.

Supplier declaration

Product – tradename:	Swisspearl Multi Force
Category:	Building materials
Product-id:	All colours and sizes
Manufacturer:	Swisspearl Group AG
CVR/SE:	CHE-105.967.016
Adress:	Eternitstrasse 3
City:	CH-8867 Niederurnen
Country:	Schweiz

Name (legal responsible): Joachim Ebenhoch

Position: Global Head of Innovation

E-mail/phone number: joachim.ebenhoch@swisspearl.com

Date (dd-mm-yyyy): Signature:

We confirm that the product meets all the requirements listed below	
1.	(EU) 2021/2139, Sections 7.1 and 7.2, DNSH criteria Building components and materials that may come into contact with occupants emit less than 0,06 mg formaldehyde per m3 of test chamber air when tested in accordance with the conditions specified in Annex XVII to Regulation (EC) No 1907/2006.
2.	(EU) 2021/2139, Sections 7.1 and 7.2, DNSH criteria Building components and materials that may come into contact with occupants emit less than 0.001 mg of other category 1A and 1B carcinogenic volatile organic compounds perm3 of test chamber air after testing in accordance with CEN/EN 16516 or ISO 16000-3:2011 or other equivalent standardised test conditions and determination methods.
3.	(EU) 2021/2139, Appendix C, point (a) (Persistent organic pollutants (POPs)) The product does not contain substances listed in Annex I or II to Regulation (EU) 2019/1021, except for substances present as accidental trace contamination.
4.	(EU) 2021/2139, Appendix C, point (b) (mercury and mercury compounds) The product does not contain mercury and mercury compounds as defined in Article 2 of Regulation (EU) 2017/852.
5.	(EU) 2021/2139, Appendix C, point (c) (ozone-depleting substances) The product does not contain substances listed in Annexes I or II to Regulation (EU) 1005/2009.
6.	(EU) 2021/2139, Appendix C, point d The product does not contain electrical and electronic equipment within the meaning of Annex I to Directive 2011/65/EU (RoHS) containing substances listed in Annex II to that Directive, unless there is full compliance with Article 4(1) of that Directive.
7.	(EU) 2021/2139, Appendix C, point (e) (REACH Annex XVII, Restricted List) The product does not contain any substances listed in Annex XVII to Regulation (EC) No 1907/2006 (REACH) unless there is full compliance with the conditions set out in that Annex.
8.	(EU) 2021/2139, Appendix C, point f (REACH art. 59(1), candidate list of substances) The product, including individual parts, does not contain substances in concentrations above 0.1% (w/w) identified in accordance with Article 59(1) of Regulation (EU) 1907/2006.
9.	(EU) 2021/2139, Appendix C, point f (REACH art. 57 a, b, c, potential candidate list substances) The product, including individual parts, does not contain substances in concentrations above 0.1% (w/w) that meet the criteria for classification in one or more of the hazard classes: • Carcinogenicity 1A or 1B in accordance with point 3.6 of Annex 1 to Regulation (EU) 1272/2008 (CLP) • Germ cell mutagenicity 1A or 1B according to point 3.5 of Annex 1 to Regulation (EU) 1272/2008 (CLP) • Reproductive toxicity 1A or 1B, adverse effects on sexual function and reproductive capacity or on development in accordance with point 3.7 of Annex 1 to Regulation (EU) 1272/2008 (CLP)
10.	(EU) 2021/2139, Appendix C, point f (REACH art. 57 d, e, potential candidate list of substances) The product, including individual parts, does not contain substances in concentrations above 0.1% (w/w) that are: • Persistent, bioaccumulative and toxic (PBT) according to the criteria of Regulation (EU) 1272/2008 (CLP) • Very persistent and very bioaccumulative (vPvB) according to the criteria of Regulation (EU) 1272/2008 (CLP)
11.	(EU) 2021/2139, Appendix C, point f (REACH art. 57f, potential candidate list of substances) The product, including individual parts, does not contain substances in concentrations exceeding 0.1% (w/w) of: • Endocrine disruptors according to criteria in Regulation (EU) 1272/2008 (CLP)
