Location	Chicago, IL, USA
Photographer	James Steinkamp, Hinsdale, USA
Type of Building	Hotel & Gastronomy

The building of the Moxy Hotel in Chicago meets the ground as a friendly, lively, and at the same time transparent component of its vibrant neighborhood. An incorporated floor-to-ceiling glass wall in the guestroom corridor frames a dramatic view of the skyline, inviting guests to experience Chicago's charm. From the exterior perspective, the dominating glass is perfectly framed by grey Swisspearl fiber cement panels providing a simple and plain appearance that implies itself into the context of the neighborhood.
